Crediting the daily dedication of sweepers for Siddipet's national Swachh Survekshan clean city awards, Rao highlighted the civic infrastructure upgrades brought in under the BRS tenure.

Taking aim at political rivals, the BRS Deputy Floor Leader drew a sharp contrast with past Congress regimes under K. Rosaiah and N. Kiran Kumar Reddy.

Major fire engulfs wholesale textile shop near High Court

Hyderabad, Oct 19: A massive fire broke out in the early hours of Monday at a wholesale textile enterprise near Madina Cross Road, opposite the Telangana High Court. The blaze erupted at Bombay Hosiery, which operates as both a retail shop and godown in the densely packed commercial belt.

Upon receiving the alert, fire tenders alongside teams from the Charminar police station rushed to the scene to initiate firefighting and rescue operations.

Thick smoke billowing from the premises created severe breathing difficulties for nearby residents, prompting emergency crews to quickly isolate the area and prevent the flames from spreading to adjoining commercial establishments.

Given the high density of flammable inventory within the wholesale textile market, officials fear substantial property damage, though the total financial loss is yet to be fully assessed. No casualties have been reported so far. The Charminar police have registered a case and initiated a probe to determine the origin and cause of the fire.

Uttam orders advance rice buffer to counter climate, price risks

Hyderabad, Oct 19 : The Telangana government is expanding its foodgrain security buffer to shield approximately 3.42 crore citizens dependent on the Public Distribution System (PDS) from potential drought, crop losses, and price spikes linked to El Niño, Civil Supplies and Irrigation Minister N. Uttam Kumar Reddy announced on Monday. Speaking at a high-level review meeting at his Secretariat chambers, the Minister instructed officials to establish advance procurement and inventory management strategies. He emphasised that uninterrupted supplies must be guaranteed even if deficient rainfall impacts upcoming agricultural cycles.

Evaluating the state's current rice reserves and procurement pipeline, Uttam Kumar Reddy urged departments to prepare proactively for adverse weather conditions rather than relying solely on the upcoming paddy harvest. The primary goal, he stated, is maintaining stable inventory levels to meet the needs of ration-card holders and welfare beneficiaries, regardless of yield fluctuations or market volatility. Telangana requires roughly 2.38 lakh metric tonnes of rice monthly totaling 28.56 lakh metric tonnes annually to support the Central Pool PDS, State Pool, Mid-Day Meal scheme, and related welfare programmes

Chief Minister Revanth Reddy laid the foundation stone for the construction of the NIUM (National Institute of Urban Management) campus in Bharat Future City on Monday.

KCR greets Telangana on Dasara, highlights cultural significance

Hyderabad, Oct 19 : BRS president and former Chief Minister K. Chandrashekar Rao extended his Dasara greetings to the people of Telangana on Monday, highlighting the festival's deep cultural roots and its historic connection to the statehood movement.

In a statement on Monday, the BRS chief emphasised that Dasara holds a unique position in Telangana's cultural heritage. He cited traditional customs including the worship of the Jammi tree a symbol of victory sighting the auspicious Palapitta (Indian roller), exchanging affection through Alai Balai, sharing Jammi leaves as symbolic gold, and seeking elders' blessings.

The BRS president noted that recognising this cultural significance, his former administration formally declared the Jammi tree as the State Tree and the Palapitta as the State Bird.

Drawing a parallel between the festival and the state's political evolution, KCR said the spirit of Vijayadashami representing the victory of righteousness over adversity was mirrored in both the struggle for Telangana statehood and the decade of progress that followed.

ORIGINAL VEHICLE No.AP09BV5544 (HONDA CITY)

FAKE VEHCILE No.AP09BV5544 (HONDA CITY) (ACTUAL VEHICLE NO.AP31BP7979)

Hyderabad Traffic Police have seized 100 vehicles using fake number plates during a special enforcement drive, officials said. In a determined effort to curb the misuse of vehicle registration numbers and strengthen traffic enforcement, Hyderabad Traffic Police has intensified its special drive against vehicles displaying fake, forged, tampered, and unauthorised registration number plates.

The special drive was undertaken in view of the increasing complaints regarding fraudulent number plates being used to conceal vehicle identities, evade traffic enforcement, and avoid statutory regulations. During the last eight months, a total of 100 criminal cases have been registered and 100 vehicles seized, comprising 88 two-wheelers and 12 four-wheelers.

Joint Commissioner of Police, Traffic, D. Joel Davis said that the use of fraudulent registration number plates is a serious violation of the law and poses a significant challenge to traffic enforcement, crime prevention and public safety. Such practices may facilitate the concealment of vehicle identities, obstruction of investigations and evasion of legal accountability.

All vehicle owners must strictly comply with the registration number plate specifications prescribed under the Motor Vehicles Act, 1988, and the Central Motor Vehicles Rules, 1989, including applicable High-Security Registration Plate (HSRP) requirements, he said. The use of fake registration numbers, altered digits, unauthorised fonts, decorative lettering, stickers or any modification that conceals or misrepresents the genuine registration number is prohibited. Vehicle owners must ensure that their registration plates are genuine, clearly visible & legible and maintained in accordance with the prescribed legal standards.

Hyderabad Traffic Police will continue focused enforcement drives against vehicles displaying fraudulent, altered or unauthorised registration number plates. Traffic personnel will maintain strict vigilance to identify such violations and initiate appropriate legal proceedings against offenders.

The department remains committed to strengthening traffic discipline, ensuring vehicle identification and accountability, preventing misuse of registration numbers and safeguarding law-abiding road users. Hyderabad Traffic Police appeals to all motorists and vehicle owners to strictly adhere to the prescribed registration number plate norms and refrain from making any unauthorised alterations. Citizens are also requested to report suspected instances of fraudulent registration number plates to the concerned police authorities for verification and necessary action.

CJP Leaders Judicial Custody Extended by 2 Days

The judicial custody of Cockroach Janata Party (CJP) leaders Saurav Das and Ashutosh Ranka was extended by two days on Monday by the Special Executive Magistrate (SEM) in connection with the Jantar Mantar trespassing case.

Das and Ranka were produced before the SEM at Mandir Marg police station after their five-day judicial custody ended on Monday. Delhi Police had sought an extension of their judicial custody, while CJP's legal affairs head, Ratna Singh, questioned the need for further detention, alleging that the prosecution had failed to present arguments on the law.

"We are still at SEM court, waiting for the court to dictate order. There is no reason to extend judicial custody. Today also, no argument was presented by PP (Public Prosecutor) on law. All his arguments were mere assumptions. Absolute waste of time of SEM court," Singh said in a post on X. Calling the proceedings a "waste of time", she demanded the release of the two leaders.

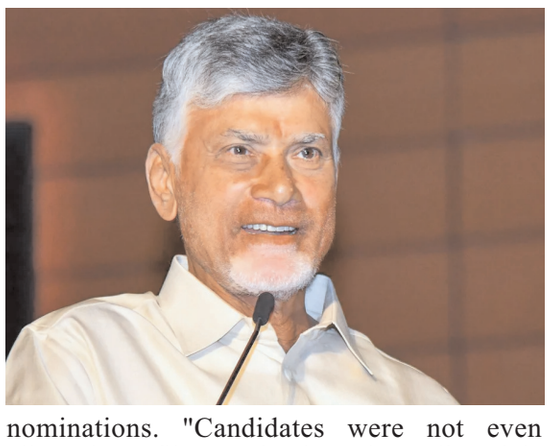

The two CJP leaders were sent to five-day judicial custody on October 14 after they were detained for allegedly trespassing at Jantar Mantar, which has been de-notified as the designated protest site. Das and Ranka, along with party member Ajinkya Shinde, were among 14 people detained on October 13 after they allegedly entered the protest site through private premises and obstructed police personnel from discharging their official duties.

Delhi Police had justified the custody order, citing their alleged repeated violations of law and apprehension that, if released, they would again violate the law and instigate others to do the same. Shinde was released on a personal bond and directed to maintain peace and good behaviour for six months.

The CJP members were protesting against the Election Commission of India (ECI) over alleged irregularities in the Special Intensive Revision (SIR) of electoral rolls and had raised slogans against Chief Election Commissioner (CEC) Gyanesh Kumar.

Earlier, CJP founder Abhijeet Dipke, along with Das and Ranka, had been released in connection with the October 10 protest after furnishing a bond of Rs 50,000 and on the condition that they would not be involved in any breach-of-peace cases for a year. Meanwhile, Delhi Police had said that Jantar Mantar was de-notified as a designated protest site on October 12 under new guidelines issued through Delhi Police Standing Order No. L&O/48/2026. Ramlila Ground, Burari Ground and CBD Ground in East Delhi were designated as alternative protest venues.

Naidu Accuses YSRCP of Using Gen-Z for Political Gains

Andhra Pradesh Chief Minister, N. Chandrababu Naidu, on Monday alleged that the YSR Congress Party was using Gen-Z as 'pawns' for its political ends. The Telugu Desam Party (TDP) National President alleged that YSRCP was "willing to do anything and commit any crime to secure political power." Addressing a press conference, Naidu alleged that the YSRCP creates disturbances and then attempts to blame him.

The Chief Minister also accused YSRCP President and former Chief Minister, Y.S. Jagan Mohan Reddy, of adopting double standards on the Election Commission. He said Jagan's party earlier supported the process for selecting the Chief Election Commissioner but was now making various allegations after suffering electoral setbacks. Naidu was reacting to Jagan's remarks at a press conference on Sunday, where he called for restoring the earlier system of appointment of Chief Election Commissioner and other Election Commissioners by a panel including the Chief Justice of India to restore public confidence in the Election Commission.

Naidu alleged that YSRCP allegedly manipulated local body elections for large-scale unopposed victories when it was in power.

He claimed that under the YSRCP rule, the then State Election Commissioner (SEC) was forced to write to the Centre seeking protection. When the SEC reported large-scale irregularities in local body elections, he was criticised instead of being supported. During the previous YSRCP government, 24 per cent of MPTC seats and 19 per cent of ZPTC seats were won unopposed. Those unopposed victories were allegedly secured through the misuse of official power, Naidu alleged.

Naidu alleged that the previous government introduced legislation aimed at disqualifying Opposition candidates and that liquor bottles were allegedly planted in the homes of Opposition candidates to implicate them and Opposition parties were prevented from filing nominations. "Candidates were not even allowed to file nominations in Pulivendula (Jagan Mohan Reddy's constituency). In contrast, candidates from various parties, including the YSRCP, have filed nominations in Kuppam, Pithapuram and Pulivendula in the current elections," he said.

The TDP chief claimed that there were no instances of such a large number of nominations being filed during the YSRCP's tenure. He alleged that YSRCP relied on violence both in the past and in the present elections. He said the government will take appropriate action against the alleged excesses of YSRCP leaders.

Priority given to cultivation of wet crops to overcome El Nino impact

Higher income should be earned through crop rotation in Yasangi: District Horticulture Officer Marianna

Mahabubabad District Correspondent October (Telangana Essence): Mahabubabad District Horticulture and Silk Industry Officer Jinugu Marianna suggested that farmers should give priority to cultivation of wet crops during the Yasangi season, keeping in mind the El Nino impact and rainfall deficit. Speaking at a program organized in Seerol on Monday on the orders of District Collector Sneha Shabarish, he called on farmers to choose crops that have market demand and can be cultivated with less water and generate continuous income.

He said that farmers are earning more than one lakh rupees per acre by cultivating oil palm, vegetables, onion, orchards, flower gardens, mulberry, groundnut and other crops in the district. Farmers cultivating under boreholes and wells were advised to cultivate oil palm, cocoa, cassava, nutmeg, pepper, coconut, vegetables, orchards, medicinal and aromatic oil crops depending on the availability of water.

Encouragement of crop diversification through crop rotation

Marianna advised farmers to practice crop rotation instead of relying on a single crop. In each mandal, with the participation of self-help groups, the cultivation of various types of vegetables, oil palm, fruits, flowers, mulberry, small grains, pulses and oilseed crops should be encouraged according to market needs. He said that opportunities for earning higher income should be examined by cultivating new crops like avocado as well as coconut, cocoa, medicinal and aromatic oil crops. It was advised that plans should be made to cultivate crops with market demand under boreholes and wells in an area of at least 50 acres in each village. Farmers were advised to reduce cultivation costs by adopting organic farming and natural farming methods.

Cutting down on expenses by growing vegetables at home

Marianna suggested that farmers should grow vegetables that people consume daily on their farm ridges, around their fields, in their backyards, oil palms, and orchards as intercrops. She said that by growing vegetables on the fronts and terraces of houses, they can meet their family needs and reduce expenses.

She suggested that modern methods such as seedling cultivation using the Protray method, raised beds, mulching, drip irrigation, and fertigation should be adopted in vegetable cultivation. She said that crop management should be improved by using neem flour, castor oil powder, neem oil spraying, use of yellow paper, and recommended fertilizers. She suggested that farmers should adopt new methods such as growing vegetables on canopies and growing tomatoes using the trellis method. She said that if crops are selected after assessing water availability, soil characteristics, and market demand, agriculture can be made profitable even in rain-deficient conditions. District Horticulture and Sericulture Department Officer Jinugu Marianna, along with farmers P. Surender Reddy, M. Murali, M. Jyothi, field officers Nagaraju, Augustine and others participated in this program.

Accusations of high charges at Annaram Sharif Dargah!

- Complaints that poor devotees are being threatened.. Government should respond immediately
- Accusations that high prices are being charged in the name of coconuts and amulets
- Bathrooms and showers should be set up.. Lok Nayak demands

Mahabubabad District Telangana Essence | October : Lok Nayak, president of the Joint Warangal District Lambada Rights Struggle Committee (LHPS), has demanded a thorough investigation into the allegations that high amounts are being charged from devotees at Annaram Sharif Dargah and justice should be done to poor devotees. He said that in addition to high charges from devotees visiting the dargah, allegations of threatening those who questioned them are worrying.

Lok Nayak said that a large number of devotees come to the Annaram Sharif Dargah in Parvatagiri mandal of Warangal district from different parts, and about 95 percent of them are poor and common people belonging to SC, ST, BC and minority communities. He said that it is the responsibility of everyone to respect the religious beliefs of the devotees, and at the same time, it is not right to cause financial difficulties by taking advantage of their faith.

Excessive collection in the name of coconuts and amulets?

Lok Nayak revealed that there are allegations that excessive amounts are being collected from devotees visiting the dargah in the name of coconuts and amulets. He mentioned the problems faced by devotees that they are being charged from Rs. 150 to Rs. 200 for a coconut that is said to be worth about Rs. 50, and up to Rs. 200 for an amulet that is said to be worth Rs. 20. He asked the concerned authorities to conduct a field investigation on these allegations and uncover the facts.

Don't you allow offerings in the hundi?

Lok Nayak said that while devotees should be given the opportunity to offer offerings in the hundi as per their wish, there are also allegations that they are being pressured to give money directly instead of putting it in the hundi. He demanded that there should be transparency in the offerings offered by devotees and that the relevant authorities should examine the details of collections, hundi income and their management.

Lack of basic facilities for women

He expressed his concern that the lack of access to basic infrastructure facilities for devotees visiting the dargah is causing serious problems. He said that devotees, including women, are facing serious inconvenience, especially in the form of bathrooms and showers. He asked that necessary toilets and showers be set up keeping in mind the rush of devotees and that sanitation should be improved.

Is it a threat if questioned?

Lok Nayak alleged that the religious leaders there, who questioned the problems faced by the poor devotees and sought justice for them, spoke inappropriately to him and threatened him by saying that they would act according to their wishes. He said that it is not wrong to

question public problems, and if those who make complaints are threatened or harassed, the relevant authorities should take action as per the law.

Lok Nayak's main demands to the government

Lok Nayak demanded a thorough investigation into the alleged high collections and threats being made at the Annaram Sharif Dargah. He suggested that steps be taken to ensure transparency in the amounts collected from devotees, hundi income, and its management. He demanded that basic facilities including bathrooms and showers be improved immediately, and that legal action be taken against those responsible if it is found that those who have complained have been harassed.

He asked the District Collector, Police Department, and the relevant dargah supervision officials to respond immediately to this issue and resolve the problems of the devotees. While respecting the sanctity of the Dargah and the religious beliefs of the devotees, the Lok Nayak made it clear that anyone who engages in illegal extortion or intimidation in their name should be investigated and action taken as per the law. He demanded that the government should not neglect to protect the rights of poor devotees and should respond immediately and provide justice.

Passengers suffer in the dark.. CPM dharna on negligence of officials

Center lights should be installed from RTC bus stand to PSR function hall!

Mahabubabad: District Telangana Essence October : A dharna was organized by the CPM party district committee on Monday, demanding the installation of center lights from RTC bus stand to PSR function hall in Mahabubabad town. Speaking on the occasion, CITU district vice-president Kumarikuntla Naganna demanded that center lighting be installed immediately keeping in mind the safety of the people. He alleged that the work related to the installation of center lights on this main road between 12th and 13th wards has been pending since last year. He criticized that although the old electric poles on both sides of the road were removed and new poles were installed, the contractor has been delaying for six months without installing street lights on them.

Due to the lack of electric lights, the road is completely dark at night, causing severe problems for motorists and pedestrians, said Naganna. He expressed his concern that accidents have occurred due to the darkness. He said that especially the passengers walking from the RTC bus stand and the local people are facing panic at night.

He said that it is not right for the authorities who should solve the problems of the people and the concerned contractor to act negligently. He asked the councilors of 12th and 13th wards to respond and put pressure on the contractor and immediately install center light poles and light electric lights.

He demanded that the authorities take immediate steps to prevent people from having any problems and accidents. Naganna warned that if the problem is not resolved immediately, large-scale agitations and struggles will be launched under the auspices of the CPM party in the coming days.

Bathukamma in Darkness, Women Fume Over Civic Negligence

No street lights from Vivekananda statue to NTR Stadium? Can't they provide lights during the festival?

Mahabubabad: District Telangana Essence October : The Bathukamma festival celebrations, which are a symbol of Telangana culture and traditions, are going on in darkness in the Mahabubabad district center, leading to deep dissatisfaction. There is criticism of the performance of the municipal authorities for not being able to at least arrange street lights for the people attending the festival program in which thousands of women and family members participate. While they claim to be organizing the festival celebrations in a grand manner, the lack of lights on the road leading there raises questions about the advance arrangements made by the authorities.

Women gathered in large numbers for the Bathukamma celebrations held at the NTR Stadium in Mahabubabad town. However, on the way from Vivekananda Statue to NTR Stadium, the street lights on both sides of the road were not on, leaving many places in darkness. Women, children and the elderly, who were supposed to celebrate the festival happily, had to travel on unlit roads. It seems that many women who attended the celebrations expressed their impatience over this plight.

The festival is visible.. but the people's problems are not visible?

Although district-level officials, public representatives, MPs, MLAs, ward councilors and leaders of various political parties attended the Bathukamma celebrations, there are criticisms that no one has publicly responded to the problem of the street lights not being lit on the main road. The city residents are of the opinion that those in responsible positions should realize that as important as participating in public events is, it is equally important to identify and solve the problems faced by the people.

Questions are being raised as to why such a crucial issue related to public safety was not considered in advance. Critics say that the lack of lighting on the road where thousands of people travel, even though the festival date was known in advance, is a sign of a lack of coordination.

Who is responsible if an accident occurs on a dark road?

The lack of street lights is not just an inconvenience. It is a matter of public safety. Especially at night, when women, children and the elderly are traveling, the risk of accidents increases if there is no adequate lighting.

Darkness causes more problems in areas with heavy vehicle traffic. Isn't it the responsibility of the authorities to identify and prevent the problem in advance rather than reacting after an accident? These are questions being asked by the urban population.

Municipal Commissioner should respond immediately

The Mahabubabad Municipal Commissioner is demanding that the people pay special attention to this problem and install the necessary street lights on both sides of the road from Vivekananda Statue to NTR Stadium. If the existing lights are not working, they are requested to get them repaired and steps be taken to ensure that the entire road is adequately lit at night. In addition, there is a need to review the condition of street lights on the main roads, intersections, festival venues and areas where people move around a lot in the town. The residents of the town are demanding that the relevant authorities conduct field inspections and take steps to prevent the problems from recurring.

It is not only the responsibility of the administration to organize festivals. It is also the responsibility of the administration to provide a safe environment for the people. The situation of not being able to provide lights during the Bathukamma celebrations should be prevented from recurring again by the municipal authorities. Public representatives should also respond to such problems and take the initiative to resolve them. The people of Mahabubabad want to ensure that there is no room for negligence in providing minimum facilities to the people of the town.

Collection chaos in Mahabubabad during Dussehra!

- Traders, employees, public representatives are worried.. Will they leave the city and flee to the villages? - Campaign that there is pressure on collection from rice mills to small shops.. When will the authorities respond?

Mullangi Mohan Reddy Telangana Essence Mahabubabad District Correspondent October Mahabubabad, Telangana Essence Special Article: The issue of collection has become a topic of discussion in Mahabubabad town during the Dussehra festival.

Allegations are being heard locally that some people are going to various business establishments, rice mills, and shops during the festival and demanding money. With these developments, there is a discussion that there is anxiety among traders, employees, politicians, and public representatives.

A new headache for traders during the festival!

It is reported that some traders are complaining that they are facing pressure on collection at a time when they should be celebrating the Dussehra festival happily. There are allegations that money is being demanded without exception from big business companies to small shops. There are opinions that the business community is facing difficulties due to this matter.

Discussion on the issue of hundreds of signatures!

The campaign that a large number of signatures are being collected in some areas regarding collections is also leading to discussion in the town. Although it is being reported that around 100 to 200 people are signing in each place, independent verification of these details is needed. What is the real intention behind the signatures? Under whose leadership is this matter going on? Questions are being raised locally.

Are they leaving the town and going to the villages?

There is a campaign that some businessmen, employees and other prominent people are staying away from the town during the festivals to avoid the pressure of collections. However, did they really leave the town for this reason? Or did they go to the villages because of the festival holidays? It remains to be clarified. The facts on this issue need to come to light.

The authorities should respond.. The facts should be uncovered!

If anyone is causing trouble to traders in the name of collection, the business community wants the relevant authorities to respond and conduct an investigation.

At the same time, it is also necessary to examine whether anyone is committing illegal collection using the name of journalists. Instead of coming to a decision without evidence against the people facing allegations, the authorities should establish the truth based on complaints and available evidence.

Everyone has the responsibility to protect the dignity of the journalistic profession!

The role of journalists is very crucial in a democracy. It is their responsibility to bring public issues to light and question irregularities. However, if anyone commits collection for personal gain in the name of journalism, it is a matter of disrespect to the reputation of the profession. In addition to protecting the dignity of genuine journalists, it is necessary to take evidence-based action against those who commit irregularities.

Will the relevant authorities respond to these allegations of collection being heard in Mahabubabad during the Dussehra festival and reveal the facts? Will they provide reassurance to the traders? It remains to be seen.

Can Sree Vishnu Recreate Success With Family

Sree Vishnu is a bankable star in the film industry, and he didn't earn that credibility overnight. He worked his way up over the years and built credibility for himself, because of which most of his films either become hits or end up as average movies.

Recently, he released a film titled Comrade Kalyan at the box office. Despite poor pre-release buzz, the film became a box-office hit. Now, the question is whether he can continue this momentum onto his next film, Family Pack.

Sree Vishnu clearly understands that families like his films, and his comedy timing is landing well. Moreover, a lot of audiences get to relate to his on-screen characters, helping him reach a wider section of audiences. Sree Vishnu must be proud of this. He has always stayed loyal to his audience and built a strong fan base. Now, with Family Pack, he is aiming to continue his stream. Crazy Kalyanam: Naresh Apologises Over Controversial Remarks

Crazy Kalyanam is one of the recent Telugu films that has received a positive response from audiences. The film is clearly heading towards a winning zone, and the team is extremely happy with the collections.

During the movie's promotion, actor Naresh opened up about having kids, and his statement went viral. In his speech, Naresh stressed that regardless of whether they are married, people should have kids. But a section of the media has completely taken it out of context.

Later, at another event, they had to clarify the same issue. Naresh said he was only trying to emphasize the world's population, where many people stress the importance of having more kids. In fact, Andhra Pradesh CM Nara Chandra Babu Naidu is also constantly stressing the need to have more kids to increase the world's population. Usually, it is unnecessary to make comments that are unrelated to the film at events like this.

It is important to focus strictly on promoting the film rather than making comments that draw more attention than the film. Naresh is known for never crossing the line in his speeches, and even now, he has politely apologized to everyone if his comments hurt anyone.

Finally, I got the beautiful opportunity to visit Puttaparthi, see the school where they studied, their classrooms, their dorms and meet so many lovely people there and meet HM aunty and she's the SWEETEST person ever.. As children, the places we grow up in, the people we spend time with, and the lessons our parents and teachers teach us become such a big part of who we are. And watching those little children sing vedas and bhajans with so much devotion, knowing their shlokas and chanting with all their heart just moved me so much."

Mom-to-be Samantha Ruth Prabhu has turned host for the cooking reality show, 'Celebrity MasterChef Tamil'. As the show is all set to reach the audience on Monday, Samantha shed light on her long history with the show. The 'Yashoda' actress revealed that she used to watch 'MasterChef' with her mother during her childhood. Samantha further admitted that she always wished to be a part of the show. My mom and I would always watch 'MasterChef' together, and it was our bonding time. So, many years later, to be a celebrity judge on 'Celebrity MasterChef Tamil' is something I never imagined. I never, ever thought this would happen. So, it's extremely special."

"I've always wanted to be part of a show that offers wholesome family entertainment on television. And this is the perfect show for me.

I'm extremely happy to be a part of it," she went on to add. With Chef Venkatesh Bhat, Chef Sashi Cheliah, and Chef Shreeya Adka on board as judges, the contestants list this season includes Abi, Balaji Murugadoss, Dheena, Janani Ashok, Maria Juliana, Mathichiyam Bala, Ravi Mariya, Reshmi Menon, RJ Deepak, Shiyara, Siddhartha, and Vinothini.

Talking about the show, Samantha earlier said that food has a unique way of bringing people closer. "I'm incredibly excited to finally share this with everyone. Celebrity 'MasterChef Tamil' is unlike anything I've done before, and that's exactly what made it impossible to say no. Food has a wonderful way of bringing people together, creating memories, and revealing a side of you that the cameras don't usually get to see," she shared.
